

# Company Introduction

- Okay Energy Equipment Co., Ltd is established in 2006, is specialized in researching and manufacturing oxy-hydrogen generator, oxy-hydrogen carbon cleaning system for car.
- There is a professional technology research team which has 20 technical personnel, including doctor and masters. We are always keeping in close cooperation with several institutions of higher learning for technical communication and devoting to improve old products, developing new products, and doing our best to meet the market demand.
- We have 5 national invention patents and 5 utility model patents. Our production capacity is 500 units per month to meet the needs of customers. Okay Energy has passed ISO9001 quality system and FCC attestation, CE certification. The life of our product can be over 5 years.
- Our products have exported to many countries, such as South Africa, Mexico, USA, France, India, Malaysia, Taiwan and etc. Integrity is our promise, and quality is our goal. We aim at creating an "Energy Saving & Emission Reduction" new world.

# WATER = FUEL

## New Energy Brazing Equipment

# What is Oxyhydrogen Generator?

Oxy hydrogen generator consumes water and electricity, electrolyze water into hydrogen gas and oxygen gas. we can use HHO gas as fuel of flame replacing LPG, Propane, Acetylene or natural gas or other normal fuel.

## Advantages for brazing:

High Quality and Safety, Efficiency and Innovation.

\*quickly remove resins, enamel, varnishes and isolating materials from wires, cables, CTC with no need of mechanical systems;

\*make copper connections up to 2.500 mm<sup>2</sup> so quickly that the material doesn't overheat;

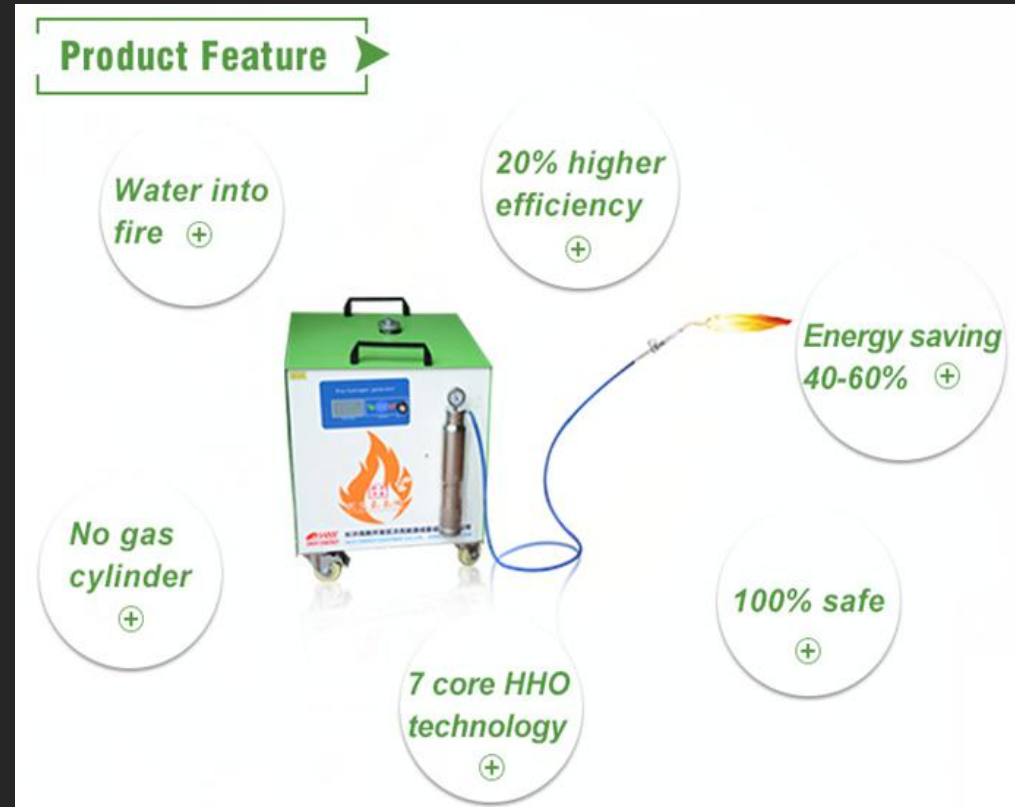

\*clean stator and rotor slots perfectly in a few seconds.

\*less oxidation inside the brazed pipes;

\*leakages reduction (average 70%);

\*lower overheating;

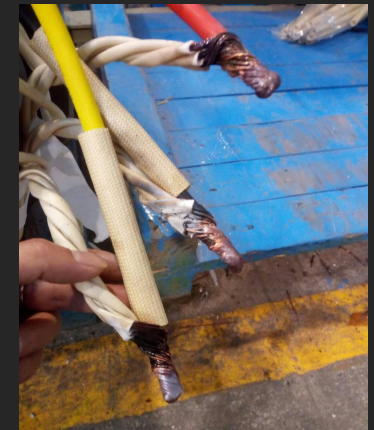

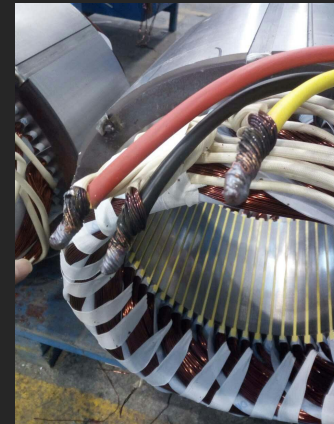

\*brazing can also be done by non-skilled welders.

# Wide Applications of HHO welding :

Suits for all kinds of nonferrous metals welding: motors & pumps enamelled wire, transformers, copper pipe, jewelry, musical instruments, battery, thermocouple, fishhook, electronics, aluminium ....

## 1. HHO for electric motors:

Operation video link: <https://youtu.be/bIKmC9z7yyM>  
<https://youtu.be/WldwyzLABUI>

# HHO welding

- ✓ Fast welding Speed
- ✓ No cold solder joint
- ✓ Safety: no gas storage, no explosion
- ✓ Eco-friendly: no carbon, no black smoke,
- ✓ Cost saving: no need extra fuel bottles

PK

# Oxyacetylene welding

- ✗ Safety risk
- ✗ Low efficiency of welding
- ✗ Fuel bottles must be stored in specific environment
- ✗ High cost
- ✗ With black smoke and terrible smell
- ✗ Dangerous to replace the new bottle and it takes time

- ✓ No need to remove the enamelled wire
- ✓ Fast welding Speed & no cold solder joint
- ✓ Eco-friendly: no carbon, no black smoke,
- ✓ Safety: no gas storage, no explosion
- ✓ Cost saving: no need extra fuel bottles

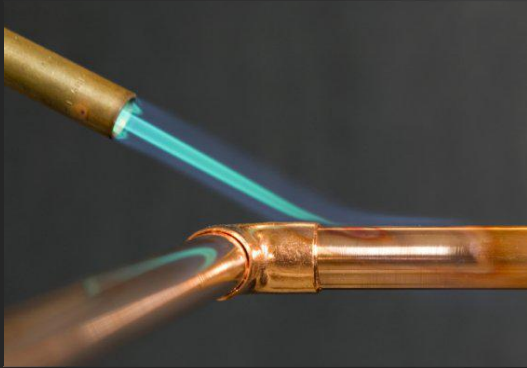

## HHO welding

# PK Spot welding

- ✗ Need to remove the enamelled wire
- ✗ Cold solder joint
- ✗ With black smoke
- ✗ With terrible smell
- ✗ Harm eyes

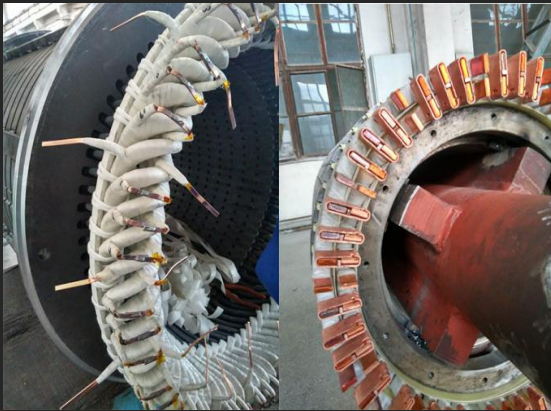

## 2. HHO for copper connection, refrigeration and air conditioner:

Operation video link: <https://youtu.be/HGBf3V7bH9Y>

## 3. HHO for power and transformers:

Operation video link: <https://youtu.be/WkAiGW9XJNk>

## 5. For other welding:

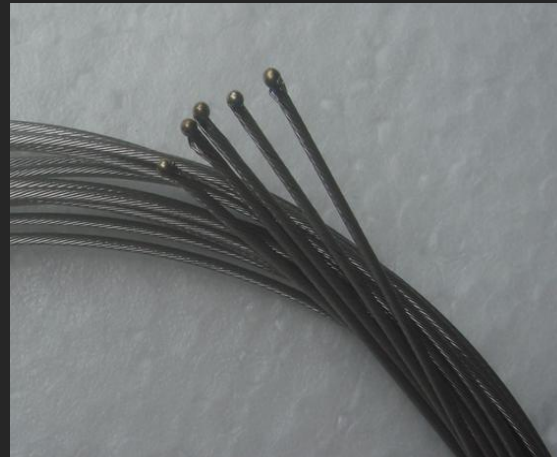

platinum resistor welding

musical instruments welding

aluminium pipe welding

thermocouple welding

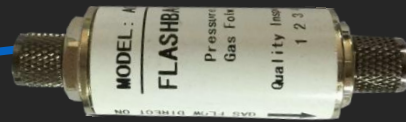

fishhook welding

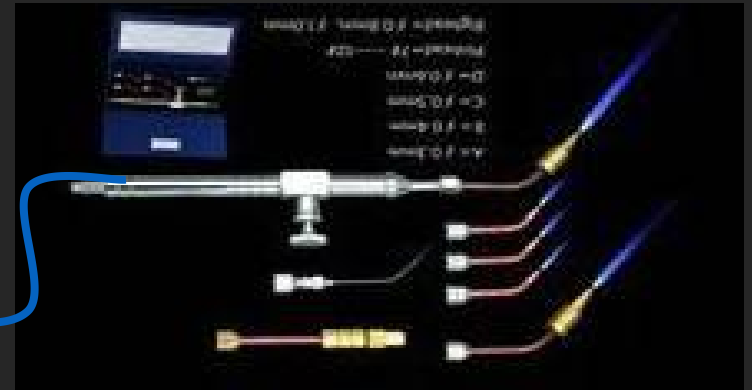

# HHO generator

**1.main machine**

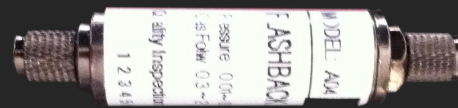

**2.flash arrestor**

**3.hho torch**

# Accessories

## Anti-backfire Arrester

## Electronic Flame Arrester

## HHO Torch

## Intelligent Electronic Lighter

# After-sale Service and Warranty

1. Global call center to support, any question will reply soon within 1 day.
  - 24 hours hot phone line support.
  - 24 hours email support.
  - 24 hours phone message support.
  - 24 hours msn and Skype support.
2. 12 months product warranty and technical support for all life.  
We provide extended warranty services.

# Our Customers:

SEW-EURODRIVE, SIEMENS, GREE, Midea, WOLONG,  
DASU MOTOR, Dzem-China,  
Suzhou Lego Motors, LIANGCHI,  
Suzhou Jufeng Electrical Insulation System,  
ALLWIN Motors, Fujian Yifeng Motors,  
Dezhou Hengli Electrical Machinery,  
NINGBO YUNSHENG, Regal Beloit,  
Jiang Tian Motor, Changzhou Nanfang Motor,  
Hangzhou Mige Electric, JIANG CHAO MOTOR,  
Leo Group, WANNAN MOTOR, Yongyuan Motor,  
Jiangmen Jiangsheng Motor....
